Project Description

The project objective is to enhance the mining sector's contribution to the economy by strengthening key institutions, improving information infrastructure and knowledge, and fostering domestic investment in the sector. This project is designed to deliver both short-term results (1 – 2 years) and longer-term results (4-5 years). Targeted activities expected to produce 'quick win' results which will be implemented earlier on in project implementations include the following:
(1) Undertaking a demand/gap analysis of industrial minerals required by the local industries to explore some import substitution potentials as well as facilitate the flow of mineral transactions.
(2) Facilitating access to finance, technology and equipment, knowledge, and markets as well as provision of mineral extension services;
(3) Supporting the mining and processing of the minerals and dimension stones to meet the required specifications of the local industries in accordance with best practices; and
(4) Developing measures for formalizing, regulating and inventorying artisanal and small-scale mining (ASM).
