## Project Description

The development objective of this project is to support the effective implementation of the Extractive Industries Transparency Initiative (EITI) in Ethiopia. This project comprises four project components. The first component, capacity building and training will involve organizing training activities for key stakeholders to increase their understanding of the EITI and to encourage their participation in the implementation of the Initiative. The second component, preparation of reports will involve financing the EEITI National Steering Committee in conducting ongoing scoping studies on EITI implementation, and creation of an EITI Reporting Template- including with regard to scope of the reporting sectors; level of detail of the reconciliation/audit process; defining materiality with regard to payments and revenue streams; degree of data disintegration; inclusion/non-inclusion of subnational, in-kind, and social payments; etc. It will also involve financing the hiring of an Independent Administrator to prepare the subsequent EITI reports, including the reconciliation of payments made by mining and oil companies to the Government and direct payments by mining companies to specific municipalities. Lastly, it will involve financing the publication of other reports relating to EITI, such as the annual activity reports, beneficial ownership roadmap, etc. The third component, awareness-raising or communication shall include implementation of the EITI Communications strategy by a communication company to communicate (i) the merits of transparency of mining, oil and gas revenues; and (ii) the EITI process in Ethiopia and the results of the first EITI Report at the municipal and community level, with the objective of provoking public awareness and debate over these issues.

### ACCOUNTABILITY MECHANISM OF WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing [ipanel@worldbank.org](mailto:ipanel@worldbank.org).

You can learn more about the Inspection Panel and how to file a complaint at:

<http://ewebapps.worldbank.org/apps/ip/Pages/Home.aspx>.
