Investment Amount (USD)	$ 70.00 million
Project Cost (USD)	$ 76.00 million

Project Description

The development objective of the Rural Mobility and Connectivity Project for Mali is to improve and sustain road access of farming communities to markets and basic services in the project area, and, in the event of an eligible crisis or emergency, to provide immediate and effective response to it. The project comprises of four components. The first component, rural roads improvement consists of following sub-components: (i) rural roads improvement works; (ii) small common facilities; and (iii) preparatory and other studies. The second component, routine maintenance and road safety focuses on the routine maintenance of rural roads in good condition improved by the project or by other development partners. It consists of following sub-components: (i) routine maintenance mechanism; (ii) routine maintenance works; and (iii) road safety. The third component, operational support consists of following sub-components: (i) project management; (ii) social safeguards; and (iii) citizen engagement. The fourth component, contingent emergency response will be available should the need arise to redirect some of the project resources to contribute with other projects in the Mali portfolio to responding to an emergency.

ACCOUNTABILITY MECHANISM OF WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. You can learn more about the Inspection Panel and how to file a complaint at: http://ewebapps.worldbank.org/apps/ip/Pages/Home.aspx.
