Project Description

According to the website of the World Bank, the proposed development objective of the project is to increase the utilization and quality of health, nutrition, and family planning services in Afghanistan.

The Project would consist of the following three components:

Component 1: Improving Service Delivery. This component will support the financing of performance contracts to deliver Basic Packages of Health Services (BPHS) and essential package of hospital services and establish an innovation fund.

Component 2: Strengthening the Health System and its Performance.This component will support shifts towards greater performance management of NGOs and to address some of the emerging broader sector challenges that require a reform of tertiary and national hospitals and improvement in the procurement and supply chain management of pharmaceuticals

Component 3: Strengthening demand and community accountability for key health services. This component aims to build demand and strengthen accountability mechanisms for critical health and nutrition services especially for maternal health, nutrition and family planning.
