Investment Type(s)	Grant
Investment Amount (USD)	\$ 5.79 million
Grant Amount (USD)	\$ 5.79 million
Project Cost (USD)	\$ 5.79 million

Project Description

The World Bank has released little information on this project as of the time of writing. A related project that this project may share objectives with has the following description:

According to the World Bank, the development objective of the Energy Efficiency in Public Facilities Project for Mexico is to promote the efficient use of energy in Mexico's municipalities by carrying out energy efficiency investments in selected municipal sectors and contribute to strengthening the enabling environment.

The project has the following four components:

- (i) policy development and institutional strengthening
- (ii) municipal energy efficiency (EE) investments
- (iii) public facility energy efficiency investments
- (iv) municipal energy efficiency contingency facility.

The proposed additional financing (AF) will leverage the experience gained with the development and implementation of the parent Project's innovative operational and financing scheme for EE investments in the public sector by expanding its reach beyond municipal street lighting, municipal buildings and waste water utilities to two important public sectors with a high energy consumption and high potential for EE: health and education.

Investment Description

- World Bank (WB)

The Global Environment Facility will provide the funds for this project.

ACCOUNTABILITY MECHANISM OF WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. You can learn more about the Inspection Panel and how to file a complaint at: <http://ewebapps.worldbank.org/apps/ip/Pages/Home.aspx>.
