Borrower	Lao People's Democratic Republic
Sectors	Law and Government, Water and Sanitation
Investment Type(s)	Loan
Investment Amount (USD)	$ 30.00 million
Loan Amount (USD)	$ 30.00 million
Project Cost (USD)	$ 31.00 million

Project Description

According to World Bank website, The objective of the Southeast Asia Disaster Risk Management Project for Laos is to reduce the impacts of flooding in Muang Xay and enhance the Government's capacity to provide hydro-meteorological services and disaster response. There are five components to the project:

Component 1. Integrated urban flood risk management. This component will strengthen flood protection and resilient urban planning in Muang Xay. The component activities will be coordinated with DUPH of MPWT. This component includes three subcomponents: structural investments, non-structural investments, and project management.

Component 2. Hydromet modernization and early warning systems. This component will improve the delivery of weather, climate, and hydrological services and end-to-end early warning systems throughout the country. Physical investments will include three provinces of the Nam Ou River Basin, namely Luang Prabang, Oudomxay, and Phongsali.

Component 3. Financial planning for disaster resilience. This component includes two subcomponents: support for strengthening national financial resilience, and payment of disaster risk insurance premium.

Component 4. Knowledge and coordination. This component supports: (a) overall project coordination and management, including M&E, and financial audits; and (b) studies for mainstreaming DRM in planning and investment.

Component 5. Contingent emergency response component. This component will allow for a reallocation of credit proceeds from other components to provide emergency recovery and reconstruction support following an eligible crisis or emergency. An Emergency Response Manual (ERM) will be developed with fiduciary, safeguards, monitoring and reporting, and any other necessary implementation arrangements.

ACCOUNTABILITY MECHANISM OF WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. You can learn more about the Inspection Panel and how to file a complaint at: http://ewebapps.worldbank.org/apps/ip/Pages/Home.aspx.
