## Project Description

According to the bank document, the objective of the proposed free-standing technical assistance is to strengthen the functional capacity of the MPI and selected provinces in the formulation and implementation of results-based monitoring and evaluation. The Technical Assistance is focused on urban development projects in the context of the preparation and implementation of Vietnam SocioEconomic Development Plan 2021-25. The project will have three components:

Component 1. Review and formulation of a Results-based framework for Public Investment Projects, with the pilot for urban projects.

Component 2. Improve the SBIMIS for online reporting and monitoring of public investment projects, with capability to adopt the M&E result framework for analytical, reporting, and forward capital planning and budgeting purpose.

Component 3. Administer the PHRD project
