### Project Description

#### Proposed Development Objective(s)

To enhance private participation in resource-efficient and cleaner production and sustainable land management within the Lake Victoria Basin

#### Key Results

The project aims to expand the success of the Resource Efficient and Cleaner Production (RECP) pilot program, leveraging successful partnerships to bring in new elements, such as sustainable supply chains and industrial symbiosis which are expected to play a major role in the scale-up of sustainable land management within the basin (as many of the local industries are agro-processors) and the joint adaptation and mitigation impacts that accompany it. This would provide a platform for expanding private sector engagement in the possible next phase of LVEMP, or otherwise inform LVBC and RECP programs that may be supported from other sources in future.

### ACCOUNTABILITY MECHANISM OF WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing [ipanel@worldbank.org](mailto:ipanel@worldbank.org).

You can learn more about the Inspection Panel and how to file a complaint at:
