Climate-Smart Agriculture and Water Management Project

## Quick Facts

Countries	Bangladesh
Financial Institutions	World Bank (WB)
Status	Proposed
Bank Risk Rating	B
Borrower	Government of Bangladesh
Sectors	Agriculture and Forestry
Investment Type(s)	Loan
Investment Amount (USD)	\$ 120.00 million
Loan Amount (USD)	\$ 120.00 million
Project Cost (USD)	\$ 170.00 million

### Project Description

According to bank documents, the project focuses primarily on: (i) rehabilitating and improving the quality of FCD and FCDI infrastructure for climate-resilient water resources management; (ii) improving the management and sustainability prospects of FCD and FCDI infrastructure by supporting local communities to play an expanded role at all stages of scheme management (including contributing to Operation and Maintenance -O&M); (iii) promoting more efficient use of water resources through improved storage, on-farm water use efficiency and water productivity in the drought season; (iv) supporting the dissemination and adoption of CSA practices both in crop and aquaculture production; and (v) improving the marketing of agricultural products by the beneficiaries.
