Project Description

The development objective of Kaduna State Economic Transformation Program-for-Results Project for Nigeria is to improve the business enabling environment and strengthen fiscal management and accountability in Kaduna State. This operation is fully aligned with the World Bank Group's Country Partnership Strategy (CPS) for the Federal Republic of Nigeria for FY14–FY17. The CPS has three objectives: (a) promoting diversified growth and job creation by reforming the power sector, enhancing agricultural productivity, and increasing access to finance; (b) improving the quality and efficiency of social service delivery at the state level to promote social inclusion; and (c) strengthening governance and public sector management, with gender equity and conflict sensitivity as essential elements of governance. This Program-for-Results (PforR) focuses on increasing the number of jobs in the modern private sector and boosting the productivity of traditional economic sectors. Another important and complementary focus of the PforR is to support Kaduna State to increase its fiscal space and enhance expenditure effectiveness to boost investments in human capital and physical assets sustainably.
