### Project Description

The development objective of the States Fiscal Transparency, Accountability, and Sustainability - Program-for-Results (PforR) Project for Nigeria is to strengthen the fiscal transparency, accountability, and sustainability in the participating states. The program is a hybrid with two components of activities that support Nigerian states to achieve the key result areas of the program: (1) a performance-based financing component for state governments, which will be implemented as a PforR; and (2) a technical assistance (TA) component for states and selected national-level institutions, which will be implemented as an investment project financing (IPF). The program will support the full and sustained implementation of a strategic subset of reforms from the FSP and the open government partnership (OGP) commitments that are implemented at the state-level. The PforR will cover the fiscal performance of states over four fiscal years: 2018-2021. The program will provide performance-based financing on an annual basis to states which have been verified through the annual performance assessments (APA) as having: (1) complied with the annual eligibility criteria; and (2) achieved the annual disbursement linked results (DLRs).

ACCOUNTABILITY MECHANISM OF WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing [ipanel@worldbank.org](mailto:ipanel@worldbank.org).

You can learn more about the Inspection Panel and how to file a complaint at:
