Investment Amount (USD)	\$ 36.00 million
Loan Amount (USD)	\$ 36.00 million
Project Cost (USD)	\$ 43.20 million

Project Description

According to bank documents, the project aims to assist the Government to develop, implement and institutionalize sustainable models for improved rural water supply and sanitation services. In addition to financing infrastructure development, the project activities involve strengthening institutions and the regulatory environment at the national level and establishing systems to support local operations, including capacity building of local government entities and service providers. The Project Development Objectives (PDO) are to assist the Kyrgyz Republic:

1. To improve access and quality of water supply and sanitation services in the Participating Rural Communities;
2. To strengthen the capacity of the Recipient's institutions in the water supply and sanitation sector.

The Additional Financing will be implemented through the same model designed under the original project components. The activities under each component are to be applied as a package of interventions, which target both local institutional and infrastructure issues and the creation of an enabling environment at the national level to support sustainable water service delivery in rural areas.

ACCOUNTABILITY MECHANISM OF WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. You can learn more about the Inspection Panel and how to file a complaint at: <http://ewebapps.worldbank.org/apps/ip/Pages/Home.aspx>.
