Electricity Access and Renewable Energy Expansion Project

Early Warning System

Electricity Access and Renewable Energy Expansion Project

WB-P162902

Quick Facts

Countries	Solomon Islands
Financial Institutions	World Bank (WB)
Status	Active
Bank Risk Rating	B
Voting Date	2018-07-05
Borrower	Government of Solomon Islands
Sectors	Energy
Investment Type(s)	Grant, Loan
Investment Amount (USD)	$ 10.30 million
Project Cost (USD)	$ 19.95 million

Project Description

According to the bank, "the project development objective is to increase access to grid-supplied electricity and increase renewable energy generation" The project components include financing supply, installation, and initial maintenance of new hybrid mini-grids throughout Solomon Islands and finance the supply, installation, and initial maintenance for one or more grid-connected solar facilities in Solomon Islands. 35 potential locations suitable for such mini-grids has been indentified in the area of population density, public facilities such as hospitals and schools, ‘anchor’ loads such as tourism facilities, food processing or other commercial operations, and potential sources of renewable energy.

ACCOUNTABILITY MECHANISM OF WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. You can learn more about the Inspection Panel and how to file a complaint at: http://ewebapps.worldbank.org/apps/ip/Pages/Home.aspx .
