Quick Facts

Countries	Haiti
Specific Location	Corail/Anse à Veau; Grande Rivière de Nippes; Petite Rivière de Nippes
Financial Institutions	World Bank (WB)
Status	Active
Bank Risk Rating	B
Voting Date	2018-03-01
Borrower	Ministry of Economy and Finance
Sectors	Agriculture and Forestry, Law and Government
Investment Type(s)	Grant
Investment Amount (USD)	$ 22.00 million
Grant Amount (USD)	$ 22.00 million
Project Cost (USD)	$ 27.00 million

Project Description

According to the World Bank, the objectives of this development project are to enhance the resilience of agriculture and ecosystems in selected watersheds and to enable the Government of Haiti to repond promptly and effectively to emergencies.

To accomplish these objectives, the project will include the following four components:

1. Strengthening of institutional and organisational capacity for landscape level interventions. This part of the project will receive US$10 million. This component will specifically target institutional capacity building, supporting a national level landscape approach to agriculture and watersheds, supporting farmer organisations, and establish a biodiversity fund.
2. Investments to promote agriculture and ecosystems resilience in the areas of interventions. This part of the project will receive US$14 million. This component will provide support to farmers and farmers' organisations within the targeted zones to increase productivity, diversify agricultural production, and boost landscape resilience to the impacts of climate change. To this end, the component may include investments in climate resilient agriculture, intensification, diversification, and commercialisation of agriculture, and building landscape resilience.
3. Project management, monitoring, and evaluation. This part of the project will receive US$3 million. It will finance the purchase of goods, equipment, incremental operating costs, studies, and other expenses for management of project implementation.
4. Emergency response mechanism. This part of the project will receive no allocated funds. Instead it will be used as a conduit for the use of uncommitted funds to implement activities in the event of an eligible emergency.

People Affected By This Project

According to the World Bank, the total number of farmers in the targeted area are estimated to be 300,000. The cited primary beneficiaries are estimated by the World Bank in the range of 15,000-20,000 organised farmers in selected watersheds. The World Bank says it will conduct a more detailed analysis in later steps of the project.

Investment Description

- World Bank (WB)

Global Environment Facility - International Bank for Reconstruction and Development as implementing agency : US$7.00 million (https://www.thegef.org/project/resilient-productive-landscapes-haiti)

International Development Association Grant: US$15.00 million

Non-Governmenal Organisation (NGO) of Borrowing Country, Jerkins-Penn Haiti Relief Organisation: US$5.00 million. It is not clear at the time of writing whether this amount will be a loan or a grant.

ACCOUNTABILITY MECHANISM OF WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. You can learn more about the Inspection Panel and how to file a complaint at: http://ewebapps.worldbank.org/apps/ip/Pages/Home.aspx.
