Sustainable Rural and Small Town Water Supply and Sanitation Additional Financing

Quick Facts

Countries	Haiti
Financial Institutions	World Bank (WB)
Status	Active
Bank Risk Rating	B
Voting Date	2017-06-14
Borrower	Republic of Haiti
Sectors	Water and Sanitation
Investment Type(s)	Grant
Investment Amount (USD)	$ 20.00 million
Project Cost (USD)	$ 100.00 million

Project Description

From the World Bank:

The development objective of the Sustainable Rural Small Town Water Supply and Sanitation Project for Haiti are to: (i) increase access to improved water supply and sanitation in targeted rural areas and small towns in zones affected by cholera; (ii) strengthen the Recipient's water and sanitation service delivery mechanism at the concentrated level; and (iii) improve the Recipient's capacity to respond promptly and effectively to an Eligible Emergency.

The proposed additional financing (AF) contributes to the achievement of the World Bank Group's twin goals of ending extreme poverty and boosting shared prosperity by increasing access to basic services in the poorest rural areas of Haiti, particularly for communities affected by Hurricane Matthew. The proposed additional financing would scale up the Project's development impact by expanding the scope and financing of activities under each of the three components by: (i) financing small repairs to bring water supply systems back into operation; and (ii) rehabilitating water supply systems in rural areas and small towns affected by Hurricane Matthew. The level II restructuring will entail: (i) reallocating grant proceeds between disbursements categories to align the respective disbursement and outstanding commitment amounts for each category; (ii) updating the Results Framework to include additional project beneficiaries resulting from the activities to be financed under this AF; and (iii) amending the Project Financing Agreement to include the financing of resettlement compensation.

Investment Description

- World Bank (WB)

This project will provide SDR 14.6 million (US$20 million equivalent) from the IDA Crisis Response Window CRW (CRW) for this proposed additional financing in the form of a grant, rather than on Haiti’s current IDA terms.

ACCOUNTABILITY MECHANISM OF WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. You can learn more about the Inspection Panel and how to file a complaint at: http://ewebapps.worldbank.org/apps/ip/Pages/Home.aspx.
