Water and Sanitation Sustainability Program in Honduras

WB-P163487

Quick Facts

Countries	Honduras
Financial Institutions	World Bank (WB)
Bank Risk Rating	B
Borrower	Government of Honduras
Sectors	Water and Sanitation
Investment Type(s)	Grant
Investment Amount (USD)	$ 60.00 million
Project Cost (USD)	$ 66.00 million

Project Description

According to the bank, the new project is conceived as a demand based project and will be structured as an Investment Project Financing (IPF) Project, compromising an IDA Credit of US$10 million to be implemented over six years. Selection of the IPF structure was based on the IPF's flexibility and suitability to incorporate financing to support an integrated and resilient water approach in eligible municipalities, including a number of specific investments in water conservation and water governance, operation of WSS systems, TA and capacity enhancement measures for urban and rural providers and the inclusion of vulnerable users and communities. The potential usage of an IDA Guarantee is based on the need to create the correct incentives for private financing in the Project.

Investment Description

- World Bank (WB)

ACCOUNTABILITY MECHANISM OF WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. You can learn more about the Inspection Panel and how to file a complaint at: http://ewebapps.worldbank.org/apps/ip/Pages/Home.aspx.
