Project Description

The objective of the project is to improve economic opportunities for targeted beneficiaries in Lebanon. The crisis in Syria has contributed to a sharp slowdown in Lebanon's economy, aggravated the existing jobs crisis, and raised social tensions. The refugee crisis is also exacerbating climate vulnerabilities, raising risks for low income, rural households in lagging regions. In this context, the government of Lebanon has developed a National Jobs Program (NJP), to complement the Capital Investment Plan, as central pillars of the reform and investment program presented at the 2018 Paris investor conference. The program supports implementation of the government's NJP has three results area as follows:

1. Enhancing the Environment for Private Investment;
2. Catalyzing Job Creation through Trade and Investment in Lagging Regions; and
3. Connecting Women and Youth to Jobs.
