Project Description

According to WB documents, the project aims to improve utilization of essential maternal and child health services in Guinea-Bissau. Further, the Project comprises four components that together will address the key challenges to improve maternal and child health outcomes in the country. The components are:

Component 1: Institutional Strengthening of the Ministry of Public Health
Component 2: Health Workforce Development
Component 3: Performance-based financing to deliver a package of essential maternal and child health services

Component 4: Community Health
