<b>Sectors</b>	Hydropower
<b>Investment Amount (USD)</b>	\$ 70.00 million
<b>Project Cost (USD)</b>	\$ 162.00 million

### Project Description

The development objective of Electricity Access Expansion Project for Niger is to increase access to electricity in the territory. This restructuring seeks Additional Financing (AF) to scale up the development effectiveness of a well performing parent project by: (a) financing a new transmission component to address the bottlenecks in the transmission systems in Niamey; (b) delivering additional results through the financing of additional infrastructure that will expand access in both urban and rural areas; and (c) further strengthening institutional capacity to improve power sector planning. The project requires the extension of the closing date from December 31, 2021, to December 31, 2023, to allow sufficient time to implement the additional activities. The disbursement estimates and schedule, implementation schedule, and Results Framework will also be revised in line with the new activities and closing date extension. The safeguards instruments were updated to cover the new component and activities that are financed by the proposed AF and other donors.

ACCOUNTABILITY MECHANISM OF WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing [ipanel@worldbank.org](mailto:ipanel@worldbank.org).

You can learn more about the Inspection Panel and how to file a complaint at:

<http://ewebapps.worldbank.org/apps/ip/Pages/Home.aspx>.
