Project Description

The proposed RETF will support the Government of Kenya (GOK) to develop and pilot models of integrated NCD care at community and primary care levels in selected counties that can inform the national scale up. More specifically, the RETF will support the design, execution, and systematic monitoring of a pilot program for screening, early detection and treatment of selected NCDs at community and primary care levels complemented by cost effective referral linkages. The RETF will lead to the production of a case study, documenting the main features of the model of care, and lessons learned to inform interventions that are scalable and sustainable.

ACCOUNTABILITY MECHANISM OF WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org.

You can learn more about the Inspection Panel and how to file a complaint at:
