Integrated Landscape Management in the Cerrado Biome Project

WB-P164602

Quick Facts

Countries	Brazil
Financial Institutions	World Bank (WB)
Bank Risk Rating	B
Borrower	Government of Brazil
Sectors	Agriculture and Forestry
Investment Type(s)	Grant
Investment Amount (USD)	$ 21.00 million
Project Cost (USD)	$ 21.00 million

Project Description

According to the bank, the development objective of the Integrated Landscape Management in the Cerrado Biome Project for Brazil is to strengthen the adoption of environmental conservation and restoration practices, and low-carbon emission agricultural practices in selected watersheds of Brazil's Cerrado Biome. The project comprises of three components. First component, Institutional Development and Capacity Building for Landscape Management is to support the development of capacities at the national and local levels to plan and implement a landscape approach in the selected watersheds through, inter alia: (i) land use mapping; (ii) studies and information on the Cerrado Biome; and (iii) strengthening of governance and the institutional capacity of MAPA, SFB, MCTIC/INPE, EMBRAPA, and SENAR, through consultancies, non-consulting services (e.g., rental of vehicles, maintenance, and information technology services),infrastructure and civil works, the acquisition of goods and equipment, the acquisition of satellite images, the carrying out of workshops and training, and the preparation and production of communication materials; Second component, Mainstreaming Landscape Practices into Selected Watersheds is to promote the adoption of low-carbon emission agricultural practices and restoration practices within private landholdings and help improve production efficiency and environmental compliance through, inter alia: (i) an action plan for the selected watersheds; (ii) mobilization and engagement of producers and public environmental institutions; (iii) training; (iv) technical assistance for landholders; (v) monitoring of landholdings' performance; and (vi) support for the forest-restoration supply chain; Third component, Project Management, Monitoring, Evaluation and Communication is to provide support for the Proposed Project's technical and administrative management, including communication.

ACCOUNTABILITY MECHANISM OF WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. You can learn more about the Inspection Panel and how to file a complaint at: http://ewebapps.worldbank.org/apps/ip/Pages/Home.aspx.
