WB-P165052

Support to DRC human African trypanosomiasis control program

Quick Facts

Countries	Congo, Democratic Republic of
Financial Institutions	World Bank (WB)
Status	Proposed
Bank Risk Rating	B
Borrower	Drugs for Neglected Diseases Initiative (DNDi)
Sectors	Education and Health
Project Cost (USD)	\$ 2.75 million

Project Description

The proposed project development objective (PDO) is to leverage recent developments in HAT treatment and other control tools to improve access to HAT health services for affected communities in ten health zones within five targeted provinces of the DRC. The PDO will be achieved by strengthening capacity at the peripheral health services level to detect and treat HAT using rapid diagnostic tests and the current standard of care and support uptake of new treatments once available. It will also strengthen community engagement in HAT detection and management so that affected communities understand the risk of HAT, participate in case detection activities, and facilitate implementation of new treatments.

Investment Description

- World Bank (WB)

ACCOUNTABILITY MECHANISM OF WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org.

You can learn more about the Inspection Panel and how to file a complaint at:

<http://ewebapps.worldbank.org/apps/ip/Pages/Home.aspx>.
