Project Description

The development objective of Fund for the Development of Renewable Energy Project for Argentina is to increase electricity generation capacity from renewable energy sources through private investment in the energy sector. This paper requires additional guarantee of 250 million US dollars to scale up the development impact of the parent Project in support of the RenovAr Program, an initiative designed to substantially increase the country's renewable generation capacity by bringing private expertise and financing via competitive and transparent renewable energy tenders. This paper also requires the extension of the closing date from August 1, 2020 until December 1, 2021 to complete the implementation of the Additional Financing (AF).
