Status	Proposed
Bank Risk Rating	B
Voting Date	2019-03-21
Borrower	Government of Cambodia
Sectors	Climate and Environment, Infrastructure
Investment Amount (USD)	$ 50.00 million
Project Cost (USD)	$ 50.00 million

Project Description

According to the bank document, the project development objective is “to improve natural resources management and related value addition in selected landscapes. The proposed project will support investments in a manner that is consistent with the landscape approach. This means that investments contribute to common outcomes, are spatially connected across the landscape, and are designed to limit negative impacts on ecosystem integrity while at the same time maximizing development benefits. The investments supported by the project therefore include the development and enhancement of climate-resilientinfrastructure and production systems; adoption of sustainable landscape management practices, information systems and decision support tools; and institutional strengthening at the national and subnational levels. Investments will also support the strengthening of the enabling environment for private sector to invest in natural resources.

ACCOUNTABILITY MECHANISM OF WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. You can learn more about the Inspection Panel and how to file a complaint at: http://ewebapps.worldbank.org/apps/ip/Pages/Home.aspx .
