Project Description

The development objective of Second Energy Efficiency Project for Montenegro aims to improve energy efficiency in health sector buildings, and to develop and demonstrate a sustainable financing model. There are 3 components in this project:

1/ Energy Efficiency (EE) investments in health sector buildings in:

- the state-owned public health sector facilities for energy cost savings and using an energy savings capture model;
- related technical services as energy audits, designs, technical revisions, works supervision, technical and social monitoring before and after the EE building renovations with energy performance certificates for all retrofitted facilities; and
- installation of energy consumption monitoring equipment in health sector buildings.

2/ Technical assistance aims to enhance local EE capacity related to:

- A long-term sustainable EE investment framework
- The preparation, implementation, and maintenance of EE investment; and
- Gender-informed communication and awareness raising campaigns.

3/ Project implementation supports by payments for PIU staff and a technical EE expert, the government Technical Service Unit (TSU), the project-related operating, costs, and financial audits.

ACCOUNTABILITY MECHANISM OF WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. You can learn more about the Inspection Panel and how to file a complaint at: http://ewebapps.worldbank.org/apps/ip/Pages/Home.aspx.
