Project Description

According to the World Bank, the development objectives of the Third Programmatic Shared Prosperity Development Policy Financing Project for Panama are to support the government of Panama's efforts to:

- (i) strengthen the frameworks for international tax transparency, financial integrity, and fiscal management
- (ii) strengthen institutional arrangements to support social assistance and education
- (iii) enhance the regulatory and sustainability framework in the energy and water sectors.

The Bank expects the following outcomes from the project:

1. a stronger framework for international tax transparency and financial integrity will improve investor confidence and support economic growth, while the strengthening of fiscal management will help ensure fiscal sustainability.
2. improved transparency and better targeting of social protection systems will help direct resources to those that need them the most, while improved quality of education will contribute to advancing opportunities, particularly for vulnerable youth, and supporting the competitiveness agenda to boost long-term productivity growth.
3. an enhanced regulatory and sustainability framework for energy will help increase the fiscal space needed to safeguard social assistance and education programs and helping to meet global commitments on climate change.
