Sheberghan Gas to Power Project

Quick Facts

Countries	Afghanistan
Financial Institutions	World Bank (WB)
Status	Proposed
Bank Risk Rating	B
Borrower	Government of Afghanistan
Sectors	Energy
Investment Type(s)	Guarantee
Investment Amount (USD)	\$ 38.85 million

Project Description

According to bank documents, the proposed project will develop a 40MW green-field gas-to-power plant which is expected to be located 20 km east of Sheberghan, and approximately 1 km west of the amine treatment plant (operated by Afghan Gas Enterprise (AGE)) at the Yatimtaq gas field in northwestern Afghanistan. It will supply power to Jawzjan (Sheberghan is its center), Faryarb, Sar-i-pul and other parts of the provinces in the Balkh region. It therefore forms part of the 2013 Power Sector Master Plan, which identifies this as the least cost option for increased domestic energy generation (up to 150 MW of installed capacity by means of gas-fired power plants).

ACCOUNTABILITY MECHANISM OF WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org.

You can learn more about the Inspection Panel and how to file a complaint at:

<http://ewebapps.worldbank.org/apps/ip/Pages/Home.aspx>.
