| **Project Cost (USD)** | $ 3.00 million |

## Project Description

Original objective: To provide:

I. an assessment of the feasibility of, and preliminary plans for, selected urban investment and institutional strengthening activities in southern Somalia, Puntland and Somaliland, and
II. enhanced project preparation and implementation capacity of participating agencies.

Current objective: To provide:

I. an assessment of the feasibility of, and preliminary plans for, selected urban investment and institutional strengthening activities in targeted cities, and
II. enhanced project preparation and implementation capacity of participating agencies.

The proposed additional financong will scale-up the Somali Urban Investment Planning Project activities to the cities of Kismayo and Baidoa with an additional financing of US$3 million. Overall, the additional financing will finance the same activities as in the parent project, mainly:

1. Establishment of Project Implementation Units (PIUs) in target cities and provision of technical assistance to enhance the capacity of the Somali executing agencies to plan, prepare and implement urban development projects, such as SURP, effectively and efficiently while mitigating fiduciary and safeguards risks. These activities will be client executed.
2. Technical studies and designs of the priority urban investments and institutional assessments of the implementing agencies in target cities. The selection of the priority investments will be based on the rapid urban assessment which was undertaken in Kismayo and Baidoa under SUIPP original financing, but also on pre-agreed selection criteria and a multi-stakeholder participatory selection process. The priority urban investments that will be studied under SUIPP Additional Financing will be financed under SURP, the follow-on investment project. The institutional assessments will provide an informational and analytic base for the preparation of institutional strengthening activities to be supported under SURP. Other thematic analytics may also be undertaken as needs emerge. In order to facilitate the quick execution of these activities and ensure quality in the fragile and conflict affected environment of Somalia, they will be executed by the Bank on behalf of the Client.

## ACCOUNTABILITY MECHANISM OF WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. You can learn more about the Inspection Panel and how to file a complaint at: http://ewebapps.worldbank.org/apps/ip/Pages/Home.aspx.
