# Early Warning System Papua New Guinea Resilient Transport Project

WB-P166991

## **Project Description**

The project aims to improve serviceability, safety, climate resilience and sustainability of roads in the Momase economic corridor.

## Key results:

- 1. Performance in rehabilitation and maintenance contracts meet agreed key performance indicators;
- 2. Development and implementation of climate resilient road construction norms;
- 3. Breakwaters and protection walls installed in the project areSlope stabilization and coastal erosion constructions built along the project road sections;
- 4. Strengthened Road management capacity of DOW;
- 5. Completion of road safety audits and establishment safety ratings (iRAP stars classification) at least for the Ramu highway.

#### **ACCOUNTABILITY MECHANISM OF WORLD BANK**

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. You can learn more about the Inspection Panel and how to file a complaint at:
