Recurrent Cost & Reform Financing Project - Additional Financing

Project Description

The objective of the projhect is to support the Government of Somalia to provide credible and sustainable payroll, and to establish the foundation for efficient budget execution and payment systems for the non-security sectors in the Federal Government and eligible federal member states and interim and emerging administrations. The Additional Financing will also scale-up support to education and health service delivery systems building.

- Recurrent cost finance to reform resource management systems. This component will provide up to US\$51
 million in financing of the civil service wage bill over the addition financing period, of which US\$20.0 million is input-based
 or "baseline" financing, and US\$30.0 million is DLI-based. It will provide a decreasing 'baseline' level of input-based
 financing of the FGS civil service wage bill in support of the timely payment of civil service salaries over the three-year
 period (US\$20 million in total) through the advancereplenishment model of payroll financing already successfully
 established under RCRE.
- Strengthen inter-governmental fiscal relations. This component will finance the running costs of the
 Intergovernmental Forums and additional support will be provided to establish a dedicated Secretariat, to be comprised
 of dedicated civil servants staffed by civil servants either seconded from FGS and FMS on a fulltime basis or newly
 recruited.
- 3. Transfers for core government functions and foundational education and health service delivery mechanisms in FMS.
- 4. **Project management and coordination in FGS and the FMS.** The additional financing proposes to expand the original Component 4 and augment its financing to extend project management and coordination support for FMS, in accordance with the new activities and extended timeline. This component would support the coordination, administration, communication, management, procurement, monitoring and evaluation (M&E), audit and dissemination of Project activities in FGS, and FMS. It will finance dedicated staff to cover project coordination and management, administration, M&E, financial management, procurement, safeguards and communications.

ACCOUNTABILITY MECHANISM OF WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. You can learn more about the Inspection Panel and how to file a complaint at:

http://ewebapps.worldbank.org/apps/ip/Pages/Home.aspx.
