Project Description

According to the bank document, the project objective is to improve the coverage and quality of Tuberculosis control interventions in the public and private sectors of India.

The four result areas are:

Result Area 1: Scaling-up Private Sector Engagement: The aim of The Government of India (GOI)’s efforts to scale up private sector engagement is to ensure timely diagnosis, notification and effective management of tuberculosis (TB) among patients in line with Indian Standards of TB Care.

Result Area 2: Rolling out TB Patient Management and Support Interventions: TB control outcomes depend on boththe extent to which patients seek care early and treatment adherence and completion. It is for this purpose that the GOI is rolling out TB patient support as one of its TB elimination strategic interventions.

Result Area 3: Innovations in Surveillance, Diagnostics and Treatment of Drug-Resistant TB: The aim is to scale-up drug-resistant TB interventions in India as a result of the continued complex and costly drug-resistant TB problem.

Result Area 4: Strengthening Management Capacity and Information Systems: The aim is to support RNCTP’s integrated information management system called Nikshay, which has functionalities that support TB patient management, drugs, and inventory management, DBT for providers and patients, and public finance management."
