## Project Description

According to bank documents, the objective of the Project is to improve local government capacity in managing their public financial resources to provide basic services and mitigate local conflicts.

The project has four components:

Decentralization reforms, including fiscal transfers to LGs, will also be supported by the Bank through its policy dialogue with the GoG in the context of budget support.
3. Project Coordination and Management (US\$3.0 million). The project will be managed by a Project Implementation Unit (PIU), embedded within ANAFIC.

In order to ensure the proper implementation of this component, the Borrower shall prepare and furnish to IDA an operatio
