Investment Amount (USD)	$ 37.00 million
Project Cost (USD)	$ 37.00 million

Project Description

According to Bank documents, this project aims to improve the socio-economic inclusion of targeted vulnerable communities, and young men and women. Project components include:

- Providing subgrants to finance local-level climate-resilient socio-economic infrastructure, including youth-led initiatives. These initiatives should address priorities identified through a participatory village needs assessment and decision-making process.
    - Potential infrastructure investments include local roads, water resources and supply networks and waste disposal.
- Providing skills trainings and rehabilitating existing buildings to support the development of "disadvantaged and inactive" young men and women aged 16 to 30 years.

Investment Description

- World Bank (WB)
