Borrower	Government of Djibouti
Sectors	Education and Health
Investment Type(s)	Grant, Loan
Investment Amount (USD)	$ 6.00 million
Project Cost (USD)	$ 6.00 million

Project Description

Accpording to bank documents;

Original Objective: The project objective is to improve the utilization of quality health care services for maternal and child health andcommunicable disease control programs (HIV/AIDS, tuberculosis and malaria).

Current Objective: The project objective is to improve the utilization of quality maternal and child health services.

The proposed additional funding will support the continuation of activities initiated under the parent project (Components 1, 2 and 3) to:

i. mitigate the health and economic impact of the influx of more than 150,000 displaced populations;
ii. meet the increasing health needs of refugees, asylum seekers, migrants and vulnerable Djiboutians to increase and protect their human capital; and
iii. enhance the effectiveness, quality and ownership of the project. In addition, the following new activities will be introduced under each component:

The project has four components:

1. Improving health service delivery performance: The additional funding will support: (a) scaling up of the PBF component of the project to health facilities in the
refugee camps of Holl Holl, Ali-Addeh and Obock, and the pediatric ward of the Peltier Hospital in Djibouti-Ville; and (b) support the Directorate of Health Regions (Direction des Régions Sanitaires) in providing mobile “Caravan” clinics for the provision of specialized health services for refugees and host populations.
2. Strengthening health system management: The additional funding will support: (a) the MOH to reinforce the routine Health Management Information System
through selection of core indicators, harmonization of data collection tools, and introduction of District Health Information Software (DHIS2) as a data management tool (storage, analysis and feedback report production and dissemination); (b) conduct surveys on the quality of health services; and (c) support implementation of selected health care waste management measures specifically the installation of small artisanal incinerators at five health facilities in Dikhil, Tadjourah, Obock, and Arta regions.
3. Strengthening project management and monitoring and evaluation capacity: The additional funding will support an enhanced PBF capacity building program at national, regional and facility levels.
4. Contingent Emergency Response Component – CERC: A CERC will be included under the project in accordance with paragraphs 12 and 13 of the Bank Policy for Investment Project Financing for projects in Situations of Urgent Need of Assistance or Capacity Constraints. This will allow for rapid reallocation of project proceeds in the event of a natural or man-made disaster or crisis that has caused, or is likely to imminently cause, a major adverse economic and/or social impact affecting public health. Environmental and Social Management aspects specific to CERC has been reflected in the revised Environment and Social Impact Assessment. In addition, an “Emergency Response Operational Manual” (EROM) will be added as part of the Project Operational Manual (POM) before effectiveness. Disbursements will be made against an approved list of goods, works, and services required to support crisis mitigation, response and recovery. All expenditures under this activity will be appraised, reviewed, and found to be acceptable to the World Bank before any disbursement is made.
