### Project Description

According to the Bank, this project provides financing to the government of the Republic of Kosovo to ensure better management of domestic water resources. The funding will be used for investment preparation as well as the construction of water storage and distribution mechanisms.

All physical investments in water storage and distribution mechanisms will be in the Morava e Binces basin area.

The Bank identifies watershed protection, erosion control, protection of water quality from industrial and domestic effluents, degradation of ecosystem services and ensuring water security as the key environmental management challenges. Ensuring dam safety and environmental flows are also relevant.

### ACCOUNTABILITY MECHANISM OF WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing [ipanel@worldbank.org](mailto:ipanel@worldbank.org).

You can learn more about the Inspection Panel and how to file a complaint at:
