STP Power Sector Recovery Project

Early Warning System

STP Power Sector Recovery Project

WB-P169196

Quick Facts

Countries	Sao Tome and Principe
Financial Institutions	World Bank (WB)
Status	Proposed
Bank Risk Rating	B
Voting Date	2020-03-19
Borrower	Government of Sao Tome and Principe
Sectors	Energy
Investment Type(s)	Grant
Investment Amount (USD)	$ 12.00 million
Project Cost (USD)	$ 12.00 million

Project Description

According to bank documents, the project objectives are to (i) increase renewable energy generation and (ii) improve the reliability of the electricity supply.

The additional financing (AF) would support cost overruns identified under Component 3, Subcomponent 3.1: Rehabilitation of Contador hydropower plant and operations and maintenance support program. This subcomponent finances the works for the rehabilitation and potential expansion of the hydropower plant up to 3.2 MW. This subcomponent will also cover engineering aspects (design and supervision of works) and preparation of related safeguards documents. The new activity (Replacement of incandescent bulbs with high-efficiency LED lamps), under the proposed AF are aligned with the parent project PDO as the reduction in the demand (particularly at peak hours) will improve the reliability of the electricity supply.

Investment Description

- World Bank (WB)

ACCOUNTABILITY MECHANISM OF WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. You can learn more about the Inspection Panel and how to file a complaint at: http://ewebapps.worldbank.org/apps/ip/Pages/Home.aspx.
