Project Description

According to bank documents, the proposed project objective is to provide access to income opportunities to the poor and vulnerable and strengthen safety net delivery systems. The proposed SSSNP would aim to contribute to strengthened household capacity to better withstand social and economic shocks and stresses, while also supporting increased community interaction and dialogue for enhanced local level social cohesion and unity.

The project has 3 components:

1. Public Works Plus - This component would focus on scaling up the public works component under the SNSDP to reach more poor and vulnerable households in existing and new geographic areas, following a “public works plus” approach.
2. Direct Income Support. This component would provide cash transfers to vulnerable groups who lack able-bodied members in their households who can participate in public works activities.
3. Strengthening Safety Net Delivery Systems and Project Management. This component would continue to strengthen safety net delivery systems which have been put in place under the SNSDP, building on the results achieved under the SNSDP.

ACCOUNTABILITY MECHANISM OF WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org.

You can learn more about the Inspection Panel and how to file a complaint at:
