Project Description

According to the bank, this project series support reforms to: i) promote a more efficient mobilization and allocation of government resources; ii) reduce barriers for private sector development; iii) protect and include vulnerable segments of the population. The series supports the government's efforts to adapt to the challenging external environment and transition to a sustainable and inclusive growth model. Reforms under pillar 1 promote a more efficient mobilization and allocation of government resources, helping reduce fiscal imbalances. They support improvements in budget processes, rationalization of current spending, and improvements tax collection. Reforms under pillar 2 reduce barriers to private sector development, supporting a more balanced growth process. They include regulations enabling private investments in the oil sector, fostering PPPs, lowering costs to opening first, and reducing financial sector distortions. Finally, reforms under pillar 3 protect and include vulnerable segments of the population. They include efforts to improve the effectiveness of social protection programs, design target compensations against policy reforms, and promote financial inclusion.
