Project Description

According to bank documents, the project objective is to increase awareness of sound nutrition and child care practices among adolescents and parents of children under 5 in the target areas, i.e. poor communities in Djibouti City, namely in the subcommunities of Arhiba and Bache à Eau (located in the municipality of Balbala).

The project has three components:

- 1. Component 1: Child Length Mats to Promote Healthy Child Growth and Follow-up. The objective of this component is to increase community's understanding and participation in identifying and addressing malnutrition (stunting) through community mobilization and awareness raising using an innovative tool the child length mat.
- 2. Component 2: Gender Mainstreaming for Improved Nutrition. The Government of Djibouti has expressed commitment to support and promote gender equality and improving maternal and child nutrition is critical to achieving this. The project will support women to take better decisions around feeding practices and nutritious foods for their children through the promotion of appropriate health and nutrition services, in combination with new knowledge and skills on maternal, child and adolescent nutrition, at specific periods of the life cycle. In addition, it will engage adolescents (girls and boys) and male partners/caregivers.
- 3. Component 3: Project Management, Monitoring and Evaluation, and Knowledge Dissemination. This component will support the management, monitoring and evaluation of the implementation of the above two components. It will finance technical advisory services (including consultants, training, workshops and audits), goods including printed materials, trainings and incremental operating costs.
- 4. Component 4: Project Management, Monitoring and Evaluation, and Knowledge Dissemination. This component will support the management, monitoring and evaluation of the implementation of the above two components. It will finance technical advisory services (including consultants, training, workshops and audits), goods including printed materials, trainings and incremental operating costs.

ACCESS TO INFORMATION

To submit an information request for project information, you will have to create an account to access the Access to Information request form. You can learn more about this process at: https://www.worldbank.org/en/access-to-information/request-submission

ACCOUNTABILITY MECHANISM OF THE WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. Information on how to file a complaint and a complaint request form are available at: https://www.inspectionpanel.org/how-to-file-complaint
