El Salvador
World Bank (WB)
Active
A
Government of El Salvador
Climate and Environment, Energy
\$ 200.00 million
\$ 235.00 million

WB-P170089

ES Increasing power generation from geothermal resources in El Salvador

### **Project Description**

According to the bank, the project will positively contribute to Climate Change adaptation and mitigation, to lowering the cost of electricity and to reducing oil imports by displacing polluting and inefficient thermal power generation. Most polluting and inefficient thermal power plants will be displaced by renewable energy from geothermal resources, contributing to greening El Salvador's energy generation matrix.

#### **Contact Information**

#### ACCOUNTABILITY MECHANISM OF WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. You can learn more about the Inspection Panel and how to file a complaint at:

http://ewebapps.worldbank.org/apps/ip/Pages/Home.aspx.
