Investment Type(s)	Loan
Investment Amount (USD)	\$ 20.00 million
Project Cost (USD)	\$ 70.70 million

Project Description

According to Bank documents, this project aims to provide electricity access to target settlements in Khatlon and Gorno-Badakhshan Autonomous Oblast (GBAO) regions of Tajikistan. Components of this project include:

- Constructing the 10MW Sebzor hydropower plant and associated power transmission lines for domestic use and export to Afghanistan.
- Providing electricity service and generation for 58 settlements in GBAO and 50 settlements in Khatlon through mini-grids (including solar, wind, and micro hydro) and household level sources (rooftop solar and solar water heaters)

Investment Description

- World Bank (WB)

The US Agency for International Development (USAID), the European Agency for Reconstruction (EAR), the European Rolling Stock Financing Cooperative, the German bank KfW, and the Swiss FOFEA are also involved in financing this project.
