Borrower	Government of Morocco
Sectors	Agriculture and Forestry
Investment Type(s)	Loan
Investment Amount (USD)	$ 200.00 million
Project Cost (USD)	$ 200.00 million

Project Description

The Morocco Digital and Climate Smart Agriculture Program aims at increasing the adoption of digital and climatesmart technologies in agri-food value chains in Morocco.

The Government’s program is the next phase of the Plan Maroc Vert (PMV). The proposed project will focus on 2 key areas of the Governement’s program: the diffusion and adoption of i) climate smart technologies and practices and ii) digital technologies in agri-food value chain. The Program will mainly focus on building the ecosystem and setting up the incentive schemes to enable the private sector to provide digital and climate smart technologies and farmers and agrifood SMEs to adopt them. The increased adoption of these technologies will transform the Moroccan agri-food sector and will contribute to reaching the higher-level objectives of the new strategy: i) Creating jobs in rural areas (especially for the youth and women); and ii) Managing natural resources in a sustainable and climate-resilient way.

ACCOUNTABILITY MECHANISM OF WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. You can learn more about the Inspection Panel and how to file a complaint at: http://ewebapps.worldbank.org/apps/ip/Pages/Home.aspx.
