Project Description

According to bank documents, the project objective is to improved operational, commercial and financial performance of electricity sector institutions and increased diversification of energy sources.

The project has four components:

1. Improving infrastructure for regional electricity interconnections
    - Rehabilitation of PETL-IEC connection points
    - Construction of North Gaza-Israel 161KV interconnection
    - Upgrade of West Bank-Jordan existing interconnection
2. Improving sustainability of service delivery
    - Revenue Protection Program (Phase 2) in six West Bank & Gaza DISCOs
3. Enabling Private Sector Engagement in Renewable Energy
    - Grid reinforcement and upgrade to enable evacuation of utility-scale and small-scale RE
    - Scale-up Rooftop Solar PV systems for Health, MSMEs and Residential Sector
    - Pilot improved battery recycling in Gaza
4. Technical Assistance, Capacity Building and Project Management

ACCOUNTABILITY MECHANISM OF WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. You can learn more about the Inspection Panel and how to file a complaint at: http://ewebapps.worldbank.org/apps/ip/Pages/Home.aspx.
