Project Description

According to bank documents, the current objective of this project remains to improve solid waste management services in the Gaza Strip.

The project has four components:

Component 1: Solid Waste Transfer and Disposal Facilities

Component 2: Institutional Strengthening

Component 3: Primary Collection and Resource Recovery

Component 4: Project Management

The GPRBA grant scheme is sought to provide complementary operational funds in the form of additional financing to the infrastructure investment supported under GSWMP. The results-based financing employs a mechanism where by the service provider, JSC-KRM, receive payments in the form of a subsidy from GPRBA, upon confirmation of independently verified achieved targets for service quality and cost recovery. This grant is provided to the service provider for two years to offset the increased operational costs while incentivizing the JSC to improve its service quality and delivery. The US\$ 2M additional funds acquired from GPRBA is primarily targeted for operational improvements and to support two key outcomes: (i) improvement in solid waste service delivery and; (ii) strengthening the financial sustainability of JSC-KRM though improved cost recovery.

ACCOUNTABILITY MECHANISM OF WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. You can learn more about the Inspection Panel and how to file a complaint at: https://www.inspectionpanel.org.
