| Investment Type(s) | Loan |
| Investment Amount (USD) | \$ 30.00 million |
| Project Cost (USD) | \$ 30.00 million |

Project Description

According to bank documents, the proposed Program Objectives are to (i) improve the business environment and strengthen financial inclusion; (ii) improve access and affordability of digital broadband services, (iii) strengthen the institutional framework for climate resilience and (iv) improve the quality and access to basic education and vocational training. It is the third in a programmatic series of three single-tranche DPF operations. The first operation (DPF1) was approved by the Board on July 24, 2019 and the second on July 22, 2021. The financing of this operation consists of an International Development Association - IDA credit in the amount of US\$30 million.

The proposed operation is structured around three pillars.

Pillar 1 supports reforms to improve the business environment for SMEs and strengthen financial inclusion by strengthening SME's access to an efficient and transparent commercial justice system and to finance, including through a legal framework enabling secured transactions and the use of digital payment services.

Pillar 2 supports reforms to accelerate the development of digital broadband services that are accessible, affordable, and of good quality. The objective is to lower costs and increase quality and access to ICT services. Proposed reforms include opening the internet wholesale and retail markets to competition and promoting access to dominant operators' essential infrastructure.

Pillar 3 supports reforms to improve the quality of basic education and vocational training and promote climate resilience. The operation supports reforms to increase the autonomy of schools and teachers' competences, boost the relevance of vocational training and align it with labor market demands, and establish an institutional and financing framework to efficiently respond to food insecurity and climate-related shocks.

ACCESS TO INFORMATION

To submit an information request for project information, you will have to create an account to access the Access to Information request form. You can learn more about this process at: <https://www.worldbank.org/en/access-to-information/request-submission>

ACCOUNTABILITY MECHANISM OF THE WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. Information on how to file a complaint and a complaint request form are available at: <https://www.inspectionpanel.org/how-to-file-complaint>
