## Project Description

According to bank documents, the Project Development Objective is to support the expansion of long-term finance to infrastructure and social sectors in Eastern and Southern Africa. The project has three components:

1. Component 1 will seek to mobilize private investment by making available long-term infrastructure finance to firms. Infrastructure sectors here include: Energy, Logistics, Water and Sanitation, ICT/digital, and social infrastructure such as health, education and housing.
2. Component 2 will provide financing for TDB to set up credit enhancement instruments to de-risk the sub-projects themselves, or to credit enhance TDB to mobilize greater amounts of private capital. Three different mechanisms are being explored to provide credit enhancement, i.e.: Partial credit guarantee fund set up by TDB; Tier 2 capital equivalent.
3. Component 3, a US\$25 million regional IDA grant, will be managed by the COMESA Secretariat to support the technical assistance and capacity building needs of the Project.
