Quick Facts

Countries	China
Specific Location	Hubei province
Financial Institutions	World Bank (WB)
Status	Approved
Bank Risk Rating	B
Voting Date	2021-03-31
Borrower	Government of the People's Republic of China
Sectors	Agriculture and Forestry, Law and Government, Technical Cooperation
Investment Type(s)	Grant
Investment Amount (USD)	$ 6.28 million
Grant Amount (USD)	$ 6.28 million
Project Cost (USD)	$ 351.96 million

Project Description

As stated by the World Bank, the project development objective (PDO) is to promote integrated environmentally sustainable and climate-smart agriculture, and agri-food quality and safety, in targeted value chains and landscapes in Hubei Province. The project design is organized around three distinct elements: (i) the systems for defining, detecting, and monitoring agro-environmental hazards and food quality and safety risks; (ii) demonstration and scaling up of applications of improved farming practices and other investments which impact product quality, environmental sustainability, and climate-smartness in selected value chains; and (iii) effective project monitoring, oversight, and knowledge management. Accordingly, the project will have three components to support activities and investments contributing to the above PDO.

Component 1 will primarily support provincial-level institutional, capacity, standards, and incentives development for promoting and monitoring 3S practices in the Hubei agri-food system.
Component 2 will support the demonstration of key 3S practices at the level of select farms and processors in the targeted value chains and landscapes of five Hubei counties, and the scaling-up of those practices more broadly through demonstration activities. It will also strengthen farmer cooperatives to allow members to fully benefit from project-supported investments.
Component 3 will ensure that there is adequate capacity at the level of the provincial and county PMOs to implement the project, and will also promote sharing of the knowledge generated by the project beyond the project counties, beyond Hubei, and even beyond China.

ACCOUNTABILITY MECHANISM OF WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. You can learn more about the Inspection Panel and how to file a complaint at: http://ewebapps.worldbank.org/apps/ip/Pages/Home.aspx.
