<b>Borrower</b>	SAHA
<b>Sectors</b>	Law and Government, Technical Cooperation
<b>Investment Type(s)</b>	Advisory Services
<b>Project Cost (USD)</b>	\$ 0.49 million

## Project Description

According to bank documents, the project objective is to improve the quality and utilization of health care services through collaborative social accountability mechanisms in target basic health centers and across the health delivery chain in Madagascar.

The project has three components:

- 1. Capacity-building for collaborative social accountability:** this component aims at enhancing horizontal accountability and to generate systematic citizens' feedback on services' quality and to ensure that COSAN, COGE, CCDS and the SLCs become effective interfaces in the coordination and harmonization of health actions in the municipality, and enable them to collaborate and create synergies to achieve the objectives of universal health coverage at the local level.
- 2. Implementing collaborative social accountability mechanisms for linking health and territorial planning and service delivery at the municipal level:** This component aims at enhancing vertical accountability mechanisms, i. e. strengthening information exchange mechanisms between local and District levels, so that local governments are better informed about district and regional health sector plans and resource allocation.
- 3. Improving knowledge and learning on collaborative social accountability in the Malagasy health sector and project management:** The objective of this component is to establish an internal adaptive knowledge and learning process to regularly adjust project implementation based on experience and contextual circumstances, and to generate knowledge and learning for targeted external dissemination amongst key stakeholders that may take up lessons from the project to apply, sustain or scale collaborative social accountability and/or inform substantive decisions.

## ACCOUNTABILITY MECHANISM OF WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing [ipanel@worldbank.org](mailto:ipanel@worldbank.org). You can learn more about the Inspection Panel and how to file a complaint at: <http://ewebapps.worldbank.org/apps/ip/Pages/Home.aspx>.
