WB-P173446

### Global Environment Facility Indonesia Sustainable Cities Impact Project

### **Project Description**

According to the bank document, the project aims "to strengthen the capacity of participating cities to prepare integrated spatial plans and prioritized capital investments that incorporate environmental considerations. Expected measurable outcomes of the project at the concept stage are as follows:

- 1) City is utilizing spatially and environmentally informed integrated planning;
- 2) City and community investment prioritization frameworks include attention to environmental considerations; and
- 3) Increased capacity of cities to prepare high-quality subprojects that enhance environmental considerations including the achievement of Global Environmental Benefits (GEBs) (\*).

Sub-indicators will be developed in the results framework during preparation to ensure the effectiveness of the project monitoring and evaluation framework including indicators on citizen engagement and gender, as relevant.

(\*) Global Environment Benefits (GEBs) as defined by GEF are as follows: biodiversity GEBs refer to the conservation and sustainable use of globally significant biodiversity, and climate change GEBs refer to the sustainable mitigation of the concentration of anthropogenic greenhouse gases (GHG) in the atmosphere.

### ACCOUNTABILITY MECHANISM OF WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. You can learn more about the Inspection Panel and how to file a complaint at: https://www.inspectionpanel.org.
