Borrower	Governments of Djibouti, Ethiopia, Kenya and Uganda
Sectors	Humanitarian Response
Investment Type(s)	Grant, Loan
Investment Amount (USD)	$ 195.00 million
Loan Amount (USD)	$ 163.50 million
Grant Amount (USD)	$ 31.50 million
Project Cost (USD)	$ 195.00 million

Project Description

According to bank documents, the project objectoive is to respond to the threat posed by the desert locust outbreak and to strengthen systems for preparedness.

The project has four component:

1. Surveillance and Control Measures. This component will limit the growth of existing desert locust populations and curb their spread, while mitigating the risks associated with control measures and their impacts on human health and the environment.
2. Livelihoods Protection and Rehabilitation. The objective of Component 2 would be to help protect the poor and vulnerable in locust affected areas from human capitaland asset loss, enhance their access to food, and rehabilitate livelihoods that have been damaged or destroyed by swarms.
3. Component 3: Coordination and Early Warning Preparedness. This component would strengthen the regional and national capacity for surveillance and control operations. Early warning systems will be developed and implemented to support prevention and rapid response to new and existing climate change induced locust infestation, thereby limiting incountry and cross-border spread and intensification.
4. Component 4: Project Management. This would finance the associated costs such as implementation support, financial management, procurement, environmental and social
management, communications and knowledge management. The communications component will help promote increased community awareness about the impacts of the
locust swarms and the response efforts to support communities before, during and after the scourge

Investment Description

- World Bank (WB)

As of August 2024, the investment amount has changed to 195 US$ million as previously disclosed 160 US$ million. There's an increase in the loan amount from 128.5 US$ million to 163.5 US$ million.
